

2015/2016 PRE-SEASON NEWSLETTER

Welcome to the 2015/2016 drag racing season at Meremere Dragway. This season we look to continue the sequence of events that made 2014/2015 a good summer. The ever popular Night Speed Drag Wars series returns, the Meremere competition series returns with the NZ Hot Rod Magazine Pro Nostalgia class that proved very popular, Dash for Cash returns and of course one of our favourites, the Nitro Shootout is back.

The **Night Speed Drag Wars Championships** returns and will again incorporate the 4 & Rotary Nationals in a seven round point score series. Night Speed Drag Wars kicks off on October 31st with the usual Guy Fawkes bang. As with the previous season, double points are up for grabs at NSDW 2, the 4 & Rotary Nationals and at NSDW 7. These events are a great chance for any enthusiast with a Street Legal car or bike to have a blat and see how good the old girl goes. Please see http://dragway.co.nz/events/C10_Drag_Wars.html for full class details and rules of racing.

The **Meremere Point Score Series** will run over the four competition meetings including the Nitro Shootout on 9th January 2016. As per previous seasons, the classes for these meetings will not follow the National Series format. To ensure fuller fields of racing, all Competition vehicles will qualify together and will be split into classes of eight quickest to slowest. The quickest eight cars in qualifying will make up the Top Comp Bracket, the second eight quickest will make up the Pro Comp bracket and so on to Super Comp and Comp. All Comp classes will run a DYO format, 0.4 Pro Tree on a Sportsman Ladder i.e., Qual 1 racer Qual 5, Qual 2 racer Qual 6, Qual 3 racer Qual 7 and Qual 4 racer Qual 8. The NZ Hot Rod Magazine Pro Nostalgia class will run throughout this series (provided a minimum requirement of six race entrants are met).

The qualifying sessions will run like the previous season and racers' attention to the qualifying schedule will be necessary for the smooth running of the events. This schedule will be available at the Entry Booth on race day and all Pit Runners and Pit Tower personnel will assist you in getting on the track at the right time. To reduce any congestion in the pits, racers will be called in their potential time brackets – e.g. 9.99+ second cars, 8+ second cars etc. (Competition Bike, Super Sedan, Super Street, Modified Bike and Junior Dragster entrants will be called in their brackets as usual). The maximum dial in for any racer in the Comp Classes is 10.99, Super Sedan maximum dial in is 10.99 and Super Street minimum dial in is 11.00. Remember there are only 2 qualifying passes for Competition and Competition Bike racers and anyone attempting to do more passes may face disqualification. At the conclusion of the qualifying session Race Control will publish the overall qualifying positions and the make-up of the day's respective brackets. Pit Control will also have this available and pit runners will assist with this information. All divisions will need dial-ins prior to commencing their first round of racing. The Racer Return system will continue this season and first round losers will be **paired** and seeded with other first round losers to determine the lower placing's. There will be placing's and points for first to eighth.

VENUE INFORMATION

Pit Area Shelters

No areas are to be chained off at any time during the season. No permanent shelter will be allowed although concrete pads and "easy-ups" are permitted. Ring Meremere Dragway's office for details.

Waste oil dumps – there are four waste oil dump stations in our facility; two are located in the Top Alcohol pit area, one in the Top Doorslammer pit area and the fourth behind the Pit Tower. Please do not dump your waste oil in our rubbish bins.

Pit FM Radio

Again this season we will be broadcasting our Pit FM Radio from the Pit Tower. This is in addition to pit runners and will assist them in trying to advise every one of race day details. Please listen to it as it will assist in the smooth running of the day. You can tune in on 106.8FM.

Pit Area Allocation

Carol Phillips will be allocating pit spaces to competitors for the season. Carol can be contacted on **09 2799 569** or **027 260 8452**. Please call her prior to the first meeting to let her know whether you will require a pit space this season. Regular racers also need to confirm their pit space requirements.

Due to some confusion regarding pit spaces, Meremere Dragway Management would like to clarify these points: Racers do not own the concrete pads or shelters they use, but own the right to use the concrete pad/shelter when they are racing, If the racer has not raced for 3 years or has not contacted Meremere Dragway Management for 3 years they forfeit their user rights to their pit space and it will be allocated to another racer. Any racer is welcome to concrete their allocated pit space for their use. Please Contact Management if you want to do so.

Meremere Dragway management must be consulted prior to any permanent concrete pads being on sold or leased out.

At any private Track Hire it is up to the Promoter to utilise any pit spaces as they see fit.

The trailer park is at the end of the camping area (ex-Vintage Speedway). Please follow the signs.

As space is precious the only vehicles permitted in pit areas are race vehicles along with one tow car and where applicable a vehicle service unit. Please respect your neighbours and stay within the confines of your allocated space.

Sponsorship and Signage

If you know anyone who would like to utilise our venue as a method of promotion, please contact us at meremeredragway@xtra.co.nz or give the office a call on (09) 238 5564.

On Site Accommodation – Light NO fires.

Camping is restricted to racers and crew members and is only to be in designated areas. We kindly ask campers to respect the privacy of others. Limited hot showers and power are available for campers. **Please light NO fires!**

Random Breath Testing

The 2015 season saw the introduction of random alcohol breath testing and this will continue throughout the new season. If approached by the assistant Area Steward for a random breath test, you are required to comply. Any refusal will result in immediate disqualification from further racing for that meeting. No refunds of gate or race entry will be applicable in this case.

Entry Booth

All Racers including Teen Championship Racers – your entry booth will be at the bottom of the Main Tower. Entry will be open for one hour prior to the track opening. Please bring your Driver's License, Race License and Log Book with you. Scrutineering will be behind the Main Tower. Please enter before you go to scrutineering.

All Junior Dragster competitors (for the first meeting of the season they compete at) must go with relevant paper work (including Log books) to Race Entry at the base of the Main Tower to enter. At their next meeting they will be able to complete scrutineering/entry in their own pit area as a dedicated pit runner will be available this year to oversee these tasks. Time slips will be collected by the pit runner and distributed in the Junior Dragster pit area.

Note: If an endorsement has been entered in your logbook from the last event attended, please see the IHRA Area Steward to check the fault and have the log book signed off before coming to Entry Booth. Any changes in your health or changes to your vehicle must be declared at Race Entry before the event.

Licensing

All competitors must hold applicable current licenses prior to race day. A civil driver's license will be accepted for Super Street (slower than 11.00 if WOFd / Reg'd) and Mod Bike (slower than 11.00 if WOFd / Reg'd) on the day at competition meetings.

License Passes

To eliminate delays in the racing schedule all license passes will occur during qualifying schedules unless otherwise approved by Track Manager / Area Steward.

Competition Meeting Racer Detail Sheet

Please ensure you complete your personal and vehicle details at time of entry; your best time and speed, all your drag racing highlights and all your sponsors and crew details when you fill in forms this summer. You can download a copy of the racer detail sheet from the Meremere Dragway website by [clicking here](#). In order to keep fans informed at the track, we need to know all about you and your sponsors so please help by filling in the details. You will only need to do this **once** during the season but the information can be updated. It will be a great help to the announcers! The racer detail sheet also contains legal information concerning insurance and indemnity that you will sign at the beginning of the season and confirm by signing your Scrutineering card at every meeting you attend.

Scrutineering

There will be no scrutineering for Tech Inspected vehicles. An IHRA Area Steward will however be carrying out random audits throughout the season. All vehicles with a WOF/Rego (>11.00 secs) will continue to be scrutineered at each event.

Your competition number and bracket category is to go on the windscreen of each race vehicle and tow vehicle, as well as the standard side position.

Important Note: No express or implied warranty of safety shall result from scrutineering, Tech Inspection or audit checks. These checks are intended to assist the competitor with his/her safety and are in no way a guarantee against injury or death to a spectator or participants. Signing this card means you agree with the indemnity on the racer detail sheet and that all health and vehicle changes have been declared.

Race Day Schedule

Race day schedules will be available at entry booth on race day. These are a guideline to racing and should be adhered to in conjunction with any information supplied by Pit Control and the Pit Runners. Every effort will be made by the Meremere crew to stick strictly to the schedule however, any incidents such as weather, oil downs, turn-around times and any other unforeseen circumstances will affect the order of the day. Please assist by ensuring you are in your correct Pit Lane when called. If your class has been called and you are not in the Pit Lanes when they approach Head of Stage, you will be disqualified.

It is of paramount importance that all racers advise out as soon as this becomes apparent so fields can be fully seeded correctly and in a timely manner. *Note: there will be no Alternates*

ON TRACK

Tow Vehicles

If you use a tow vehicle please ensure it uses the return road when following race cars down the track. In line with safety regulations, there should be no children or standing passengers on the back of the vehicles. The return road has been widened from the finish line to the Chute Packers shed. When going to tow cars from the braking area do not use the track but continue down the return road. **Please be considerate of racers driving back under own power – move over to allow room for them to pass to avoid overheating.** The speed limit for all internal roads is 10kmh, please abide by the speed limit as children are well known for popping out of nowhere.

Chute Pins

As per the rulebook, all chute pins must be removed in the staging lanes. Failure to remove pins before the burnout can lead to disqualification at the Starters discretion.

Burnouts

Super Street and Super Sedan are prohibited from crossing the start line during the burnout. One warning given during qualifying, disqualification if start line crossed during eliminations.

STAGING

All vehicles will be called to the staging lanes by the announcer or pit runners. Once a vehicle reaches the front of the staging lanes for a run, it must be prepared to fire and race as directed by the Starter. Any vehicle not prepared to fire or unable to fire when directed by the starter may be excluded from the race at the starter's discretion.

We will continue to implement Auto Start this season.

As is now customary at Meremere Dragway, courtesy staging will be mandatory for all categories. As a reminder, both contestants must activate their pre-stage lights before either may advance into the stage beams. The final staging motion, using applied power, must be in a forward motion, going from pre-stage to stage position. (This is considered a courtesy rule and the Starter has the option of backing out both drivers and re-staging to assure a proper start). The second infringement in one race day will result in **DISQUALIFICATION**. In the case of Junior Dragster, the Starter will allow one pull back. See track rule below. Disqualification is at the discretion of the Starter.

COURTESY STAGING

We will continue to enforce courtesy staging this season.

Failure to courtesy stage more than once at one race meeting will result in disqualification in eliminations at the discretion of the Starter. Courtesy Staging - Both cars must Pre-stage before either car stages. A vehicle that accidentally lights both bulbs may be allowed to back up (pull back with juniors) and restage correctly if the other Racer is not yet in Pre-Stage or Stage. If the Tree is activated during this process and the Racer has not restaged, he will be eliminated. The amount of time allowed for the second car to stage is predetermined by the Auto start function in the system (refer Meremere Dragway rulebook specific to your class).

Over Staging

If you are last in and “over stage” (drive through the lights), the Starter will trigger the Christmas tree and let the other car go. The offending vehicle/driver will be given an automatic red light. You are not permitted to “reverse stage”. Meremere Dragway requests all Competitors to comply with the Track Rules relating to Courtesy Staging as it is a mandatory part of racing at Meremere Dragway.

Breakages/Oil Downs

In the event of your vehicle breaking or dropping oil, please ensure that you pull to the SIDE of the track as soon as it is practical and STOP. This will drastically speed up the cleanup operation. If your vehicle requires a nappy or belly pan and one is not fitted and you do oil down the track, this may result in a fine or disqualification at the discretion of the IHRA Steward / MDI Race Director.

Antifreeze

All competition vehicle/bikes are prohibited from having antifreeze i.e. glycol, in their vehicle/bike. Violations may result in disqualification/fine at the discretion of the IHRA Steward/MDI Race Director.

Passengers

To ensure Meremere Dragway adheres to safety regulations, there should be no passengers in race vehicles without prior arrangement in writing to the Board of Management (excludes Teen Racing). Vehicles given prior dispensation and capable of exceeding 150mph through the finish line must shut down at halftrack. We are passionate about upholding our safety record so please don't abuse the privilege.

Time Slips

Please have one crew member uplift time slips. Only Modified Bike, Super Street and Screamin' Eagle competitors may collect these on the return road. Please observe the speed limit of 10kmh as you approach the Main Tower.

Please support our Sponsors by using and promoting their products. For details on the supply of products such as VP Race fuels please ring Gary on 0274 056060.
